

Kumbhar Abhishek, akumbhar1@hawk.iit.edu (A20525815)

Chandru Pramoda, pchandru@hawk.iit.edu (A20528337)

Bedare Payal, pbedare@hawk.iit.edu (A20525785)

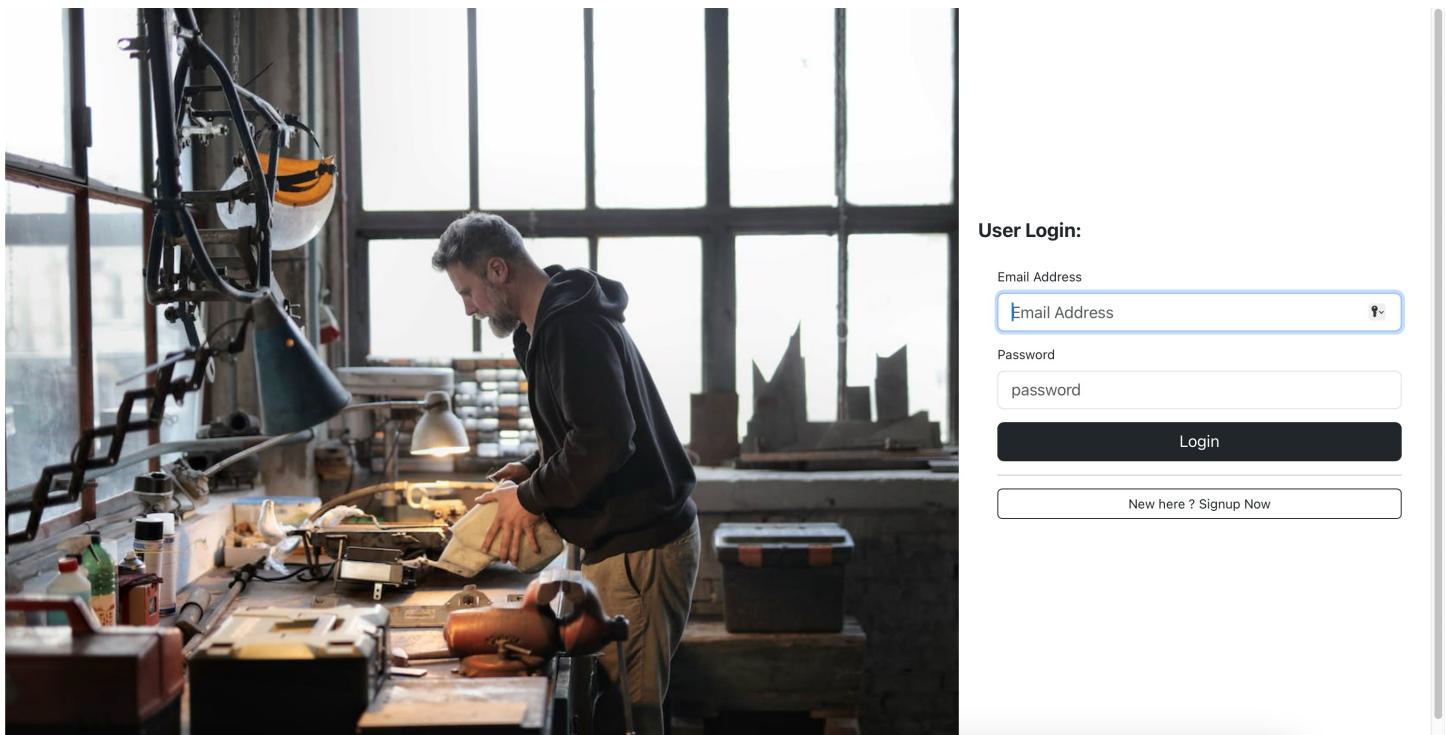

The screenshot shows the RepairMate homepage. At the top, there's a navigation bar with links for "RepairMate", "All Services", "About Us", and "Find Nearby". On the right, it says "Welcome, Abhishek" with a dropdown arrow. Below the header is a large image of a man with a beard working on a machine in a workshop. A white search bar contains the placeholder text "What service are you looking for?". In the bottom left corner of the main image area, there's a text overlay that reads "Become a REPAIRMATE and start earning your way.". In the bottom right corner of the main image area, there's a button labeled "Register as Repairmate".

This section is titled "Recomended RepairMates" and features four profiles in a grid:

- SA** Sarah
- RY** Ryan
- JE** Jessica
- MI** Michael

Each profile consists of a circular icon with initials, the name, and a small "View All" button in the top right corner.

The screenshot shows a user login form on the right side of the page, overlaid on a large image of the same man working in the workshop. The login form includes fields for "Email Address" and "Password", a "Login" button, and a link for new users to "Signup Now".

The screenshot shows the MongoDB Atlas Data Services interface. The left sidebar is titled "Project 0" and includes sections for Overview, Deployment (selected), Database, Services (Device Sync, Triggers, Data API, Data Federation, Search, Stream Processing), Security (Backup, Database Access, Network Access, Advanced), and a Goto section. The main area is titled "Data Services" and shows a search bar "Search Namespaces". Below it, storage details are listed: STORAGE SIZE: 36KB, LOGICAL DATA SIZE: 6.98KB, TOTAL DOCUMENTS: 4, INDEXES TOTAL SIZE: 36KB. A navigation bar includes Find, Indexes, Schema Anti-Patterns (0), Aggregation, and Search Indexes. An "INSERT DOCUMENT" button is at the top right. A "reviews" document is selected, showing its _id, providerId, and review array. Each review object contains userL, userAg, userGender, userOccupatio, reviewRating, and reviewText fields. The results are labeled "QUERY RESULTS: 1-4 OF 4".
